

# Mathematicians in Schools

a subprogram of Scientists in Schools

Mathematicians in Schools is a national program creating and supporting flexible, ongoing partnerships between teachers and people who work with maths, including statisticians, mathematical scientists and those in the finance industries.

Mentor students ... run a maths night ... set up a maths club ... link to contemporary maths ... promote careers in maths ... develop classroom activities ...

Participation is free and open to all mathematicians wanting to share their passion for maths, and all teachers wanting to enhance maths education in their classrooms.

Register today so we can find you a partner. Visit [www.mathematiciansinschools.edu.au](http://www.mathematiciansinschools.edu.au) for ideas and information and to register online.
